Image 4. iPhone 17 / Purple

What to Expect

This product exhibits minimal signs of wear, boasting a pristine appearance with little to no scratches and without cracks, or scuffs on both the screen and housing, ensuring a top-tier experience for the discerning buyer.

Device Sample Images

iPhone 17 / Purple

Grade A

Image 5. iPhone 15 Pro / Natural

What to Expect

This product exhibits minimal signs of wear, boasting a pristine appearance with little to no scratches and without cracks, or scuffs on both the screen and housing, ensuring a top-tier experience for the discerning buyer.

Device Sample Images

iPhone 15 Pro / Natural

Grade A

Image 6. Samsung J7RF / Gold

What to Expect

This product exhibits minimal signs of wear, boasting a pristine appearance with little to no scratches and without cracks, or scuffs on both the screen and housing, ensuring a top-tier experience for the discerning buyer.

Device Sample Images

Samsung J7RF / Gold

Grade B

Image 7. iPhone 16 Pro Max / Gold

What to Expect

This product can showcase very minor scratches, does not have any dents, and may present extremely subtle scuffs on both the screen and housing. It has been thoughtfully preserved, ensuring a high-quality experience for its next owner.

Device Sample Images

iPhone 16 Pro Max / Gold

Grade B

Image 8. iPhone 8 Plus / Gold

What to Expect

This product can showcase very minor scratches, does not have any dents, and may present extremely subtle scuffs on both the screen and housing. It has been thoughtfully preserved, ensuring a high-quality experience for its next owner.

Device Sample Images

iPhone 8 Plus / Gold

Grade B

Image 9. Samsung A03s / Black

What to Expect

This product can showcase very minor scratches, does not have any dents, and may present extremely subtle scuffs on both the screen and housing. It has been thoughtfully preserved, ensuring a high-quality experience for its next owner.

Device Sample Images

Samsung A03s / Gold

Grade C

Image 10. iPhone 14 / Purple

What to Expect

This device can exhibit minor scratches, yet remains free from cracks, with only minor scuffs present on both the screen and housing. While there are some cosmetic imperfections, they do not detract from the overall functionality of the device, ensuring a satisfactory user experience.

Device Sample Images

iPhone 14 / Purple

Grade C

Image 11. iPhone 6 / Space Gray

What to Expect

This device can exhibit minor scratches, yet remains free from cracks, with only minor scuffs present on both the screen and housing. While there are some cosmetic imperfections, they do not detract from the overall functionality of the device, ensuring a satisfactory user experience.

Device Sample Images

iPhone 6 / Space Gray

Grade C

Image 12. Samsung A5 / Black

What to Expect

This device can exhibit minor scratches, yet remains free from cracks, with only minor scuffs present on both the screen and housing. While there are some cosmetic imperfections, they do not detract from the overall functionality of the device, ensuring a satisfactory user experience.

Device Sample Images

Samsung A5 / Black

Grade D

Image 13. iPhone 14 Pro Max / Space Gray

What to Expect

This device can display heavier scratches, though it remains free from cracks, with visible scuffs present on both the screen and housing. Despite these signs of wear, the device is structurally sound and fully operational, ready to fulfill its intended purpose for its next user.

Device Sample Images

iPhone 14 Pro Max / Space Gray

Grade D

Image 14. iPhone 6 / Space Gray

What to Expect

This device can display heavier scratches, though it remains free from cracks, with visible scuffs present on both the screen and housing. Despite these signs of wear, the device is structurally sound and fully operational, ready to fulfill its intended purpose for its next user.

Device Sample Images

iPhone 6 / Space Gray

Grade D

Image 15. Samsung A115 / Black

What to Expect

This device can display heavier scratches, though it remains free from cracks, with visible scuffs present on both the screen and housing. Despite these signs of wear, the device is structurally sound and fully operational, ready to fulfill its intended purpose for its next user.

Device Sample Images

Samsung A115 / Black

Grade HBM

Image 16. iPhone 13 Pro Max / Blue

What to Expect

This category is a mix of Grade B and C, may show various degrees of cosmetic imperfections. While structurally sound, the device may display noticeable wear and tear on its exterior. Additionally, it's important to note that the Face ID or Touch ID functionality is not operational. Despite these limitations, the device remains functional for basic usage, making it suitable for users seeking functionality over cosmetic perfection at a reduced price point.

Device Sample Images

iPhone 13 Pro Max / Blue

Grade HBM

Image 17. iPhone 6 / Silver

What to Expect

This category is a mix of Grade B and C, may show various degrees of cosmetic imperfections. While structurally sound, the device may display noticeable wear and tear on its exterior. Additionally, it's important to note that the Face ID or Touch ID functionality is not operational. Despite these limitations, the device remains functional for basic usage, making it suitable for users seeking functionality over cosmetic perfection at a reduced price point.
